TRANSPORTATION REINVENTED

RETAIL TRANSPORTATION MANAGEMENT

LET MACTRANS LOGISTICS
MANAGE YOUR TRANSPORTATION
SUPPLY CHAIN

MacTrans Logistics provides transportation management to some of North America's largest retailers. We currently service the grocery, office supply, clothing and hardware industries. We also manage special projects for store openings or renovations and deliver non-merchandising freight to the final location when needed.

We provide the insight required to get the most out of your supply chain. You will work with one of our dedicated transportation experts, whose carrier and distribution experience presents a new perspective when analyzing your day-to-day shipping procedures. Shippers are turning away from traditional shipping methods and are looking to true, full service logistics providers for answers. We have responded with more than standard freight services. MacTrans Logistics has literally reinvented transportation to suit each customer's exact requirements.

MACTRANS

TRANSPORTATION REINVENTED

VENDOR CONSOLIDATION PROGRAMS

More and more retailers are seeing the advantage of controlling their own inbound freight. By using our inbound vendor consolidation programs, Mactrans Logistics will help you streamline this process and reduce the amount of carriers currently delivering to your facility. You will save by reducing paperwork and administration costs. We will work closely with your vendors, logistics department and buyers to streamline your transportation supply chain.

CLOUD-BASED TMS DESIGNED SPECIFICALLY FOR RETAILERS

Mactrans offers an integrated solution with full visibility through our own customized cloud-based Transportation Management System (TMS). We receive orders electronically and create customized reports to help retailers analyze their freight and shipping patterns. If you are a retailer of any size, looking to transition from traditional prepaid freight terms to collect terms (where vendors pay you a freight allowance), we can help with the entire process.

TRANSPORTATION MANAGEMENT

Whether it's increasing costs or addressing equipment shortages, we understand your processes and can respond. We help you transform your supply chain into a tactical advantage over your competition. We are experts at making the following modes of transportation work for your business:

- 🌀 Truckload (TL) Transportation
- 🌀 Less-Than-Truckload (LTL) Transportation
- 🌀 Courier Transportation
- 🌀 Specialized Transportation
- 🌀 Intermodal Transportation
- 🌀 Expedited Transportation
